

TROOP 20 CAMPING LIST
Devil's Lake November Campout

___	Swim Suit and & TOWEL: We'll be going to a water park on Saturday Evening
___	SCOUT HANDBOOK: There's always an opportunity to get something signed off on a campout.
___	SLEEPING BAG: A reasonably warm bag. If using a summer bag, supplement it with a liner bag or blanket.
___	FOAM PAD or THERMO-REST: Especially important for comfort and staying warm.
___	GROUND CLOTH: Must be waterproof, a barrier to go under the foam pad and necessary during all seasons.
___	RAIN SUIT: Could be a poncho, but a rain suit works best.
___	BACKPACK or HOCKEY BAG - Hold everything, but be able to carry it easily.
___	CAP: With a visor (we hope to be in the sun). Helps keep warm at night.
___	UNDERWEAR: Always one more pair than the number of days we are on the campout (and long insulated style if your sleeping bag is questionable warmth).
___	PAJAMAS: Flannel pj's are best, also, sweats work well. Anything too small and tight will make you cold.
___	FLEECE (better than a SWEATSHIRT, which can get wet and cold).
___	SHORT PANTS: It gets very hot and sweaty climbing up these dunes.
___	LONG PANTS: Can get VERY cold at night.
___	EXTRA CLOTHES: We will not carry too far from the car, so you can afford some spare warm clothes and change of clothes if it is rainy.
___	JACKET/COAT/WIND PARKA: Bring a coat or jacket, it can be very cold.
___	SOCKS: Scouts may get their feet wet in the lake.
___	SHOES: Hiking Boots for hiking Devil's Lake trails.
___	TOILET KIT: Should contain a small bar of soap, toothpaste, toothbrush, a few Band-Aids, comb, etc.
___	TOILET PAPER: You never know if any is available at the campsite.
___	FLASHLIGHT AND BATTERIES: A small one will do. Be sure to check the batteries.
___	MESS KIT: This can be a store bought one or one put together from home consisting of a knife, fork, spoon, plastic bowl or metal plate, and an unbreakable cup.
___	NALGENE WATER BOTTLE: We will have water at the campsite, but you will need to bring water on the hike.
